With the last one, I don't know if this is only available on the premium version, but it's a wonderful feature. Basically, if you look for a program to be your novel, then you are going to be asking yourself whether you're going to be able to write it. No doubt at all about it. This is not a bad program, but it is not a good novel writing program. This program is good for editing. If you are going to edit it or write a novel and you need to be able to write, then this program is not for you. It is going to be a writer's tool, not a one who's trying to write a novel tool. In addition, there is one more option. It's "the time slip", or "time shift", or "time warp". I don't really remember the terminology. Basically,
