- Uniqueness with Fantasy Action RPG Components Action-RPG ’s Burst system Although classes are established in all fantasy RPGs, its scope is narrower than other fantasy RPGs. For instance, in its character customization, it allows you to add abilities as you wish rather than relying on a set list. In this respect, it is closer to action-RPGs. In addition, in order to be “unlocked” as a class, you have to level up. Although level-ups are usually passive and can grant certain skills, they also consume Skill Points to do so. This becomes especially clear in the subclassing system. The “Subclass Unlocks” feature of the Thaumaturge class, for example, consumes skill points to unlock three subclasses. In the RING Game, skills are divided into action and attack skills, and are displayed using a “A” and “T” icon. Even in battle, attack and action skills are used simultaneously. Therefore, it is possible to combine attack skills to increase the amount of damage you deal while still maintaining a smooth battle. - Overcharge: Build the amount of super-charged parts you receive at the end of a battle to attack an enemy. * Above: This is a screenshot of the UI. - Rank-Up: Level up your skills, increase their attributes, and unlock new skills. - Subclass: While not all classes allow you to choose subclass at Lv. 5, they can only be chosen at Lv. 10. Here, we introduce the subclass system. - Progress:

Progress through the world by completing quests and defeating enemies. ※ ※ High-level enemies with a large amount of HP. An enemy at the end of the stages cannot be dealt with by normal action. ※ - Enamel Rewards: Master an adventure and receive it as an enamel reward for the first time. - Explore Dungeons: Roll the dice to enter a dungeon. ※ ※ An NPC will appear at each of the four stages. When one of them dies, another will appear. Even after the dungeon has been cleared, NPCs that were in the dungeon at the time of death will appear at the exit. They will not appear if they did not enter the dungeon. - Explore dungeons: Experience unique gameplay by entering dungeons and explore them.
