As revealed in FIFA 20, and partially teased in FIFA 19, this is an advanced version of FIFA's famed "intelligent engine". The new engine adds 30 new attributes, but also lets you play like a pro from a 20-year-old game, making changes so you can experience the game the way it used to be, even if you're playing online. FIFA 2022 features include: The all-new FIFA Development Branch, a new way to play and develop FIFA content that brings together data, creativity, new tools and skill sets into one ecosystem 28 first-team players - including Old Trafford legends Cristiano Ronaldo, Wayne Rooney and Ryan Giggs, and fresh young talent like Raheem Sterling, Anthony Martial and Sadio Mane from across the globe. The one true, authentic way to play FIFA online, as it was back in the classic FIFA days 2. New Player Progression FIFA Ultimate Team, the main tool of building and managing your profile, is enhanced with new rewards and improvements, including the ability to unlock rewards in-game during gameplay; a daily reward related to a new season of the Ultimate Team Championships; and a monthly and seasonal reward that can be used to unlock additional packs in FIFA Ultimate Team. When you match train, you earn rewards such as SP credits, Mastercards and additional XP. There are also many new rewards to be earned from playing friendly games. Players have direct access to all of their in-game Pro Clubs and players as well as the ability to change their role. All of these clubs are now personalized with your name, number and custom crest. You can also choose to display your name on the back of your shirt, and the crest is customizable to match your personality. In addition to these new innovations, the team-based gameplay also features a new mode of play - "Compete For Glory". 3. FIFA Ultimate Team FIFA Ultimate Team features a brand new card design, with the same customizable crests that appear in FIFA 20 and a new aesthetic. New rewards are granted for wins, losses, and draws, with special win bonuses and Divisional prizes for qualifying for the FIFA Ultimate Team Champions League and special Divisional prizes for qualifying for the FIFA Ultimate Team Champions League. New ability cards are obtained from putting together and breaking apart your squads. FIFA Ultimate Team Champions are some of the greatest players

Fifa 22 Features Key:

- Over 170 Best XI players and legends
- **FIFA 2K PLAYER MATCH PREPARATION:** A new in-game engine uses a more accurate and detailed physical model of the match area and an expanded set of tools to create a more realistic and challenging environment. This includes new animation sets, goalkeepers and their new off-post range of motion.
- **PLAYER TECHNOLOGY:** New Hybrid 3D Pitch Digitizer (HP TDI) as the new surface coverage. This plays back the match data more quickly, and more naturally, making it feel more unpredictable.
- **DYNAMIC 3D OBJECTS:** A new "Flying Objects" motion system. A range of new physics-based aircraft are supported by a pioneering 3D environment interaction system. Responsive smoke, fire, birds and fireworks made possible by impact deformation data

FIFA is the only authentic soccer title that puts YOU in the center of the pitch to play and control the action. You'll take on the role of a superstar athlete in FIFA's most immersive, authentic and exciting soccer experience ever. You'll feel like your teammates, opponents, crowd and environment are all reacting to the real-world speed, power and technique of the pros. And, thanks to enhanced Speed Paint and a new fully-integrated ball physics system, every goal, tackle and skill move will feel lifelike and realistic. What are the improvements to my gameplay? With FIFA's all-new Moves, Attacking Intelligence, Attacking Vision, the Physicality and Control Intelligence systems, and a new animation

system, every move will feel more controlled, fluid and weighty. Plus, in Goalkeeper duels, the commands for interacting with your goalie will feel more natural, and smarter. Creating Impact With RealMotion, FIFA delivers unprecedented levels of life-like behaviour for the on-field action, while the new Speed Paint tool allows players to scrutinize the movement, speed, path and direction of the ball to make better decisions and fine-tune their game. Physicality, the new system that modifies players' performance based on their on-field profile, introduces a level of realism never before seen in soccer. With the same data generated by the Speed Paint tool, the Visual Impact system analyzes each touch, pass, run, tackle, shot and header, and adjusts the game dynamically to display realistic animations in the form of reactions, distances, trajectories, ball speed, height of the tackle, number of players and ball type. New Features that Capture the Heart of the Sport FIFA offers enhanced gameplay control via new Precise Control Intelligence, Vision and Touch intelligence systems. Vision has been upgraded and improved for improved and more consistent ball anticipation, anticipation can be further refined when receiving passes and crossing, and offside issues can be identified more effectively. The Touch Intelligence system, which also includes a new Symmetrical Touch control model, has been further enhanced for more dynamic and responsive interactions with players and the environment. The physicality system has been enhanced for more realistic off-the-ball collisions and tackling, while AI has been upgraded for improved goalkeeping, consistent and more intelligent run up and shot direction, as well as improved goal kick direction, stability and placement.
