Thank you for helping me nopus the right price for my game It maybe me who'm a senior player but I've been able to make good games and my followers like it. My game is a fantasy RPG with a nice story, a great grained smooth graphics and online gameplay / local multiplayer. Check the game out on: You can also watch my video on YouTube to better understand how the game plays: Elden Ring sells for SR 50000 and while this seems a lot I have made hundreds of these games, simple monetization and payment release models and a community of developers behind me. I am here so I can answer questions regarding the game or how it works, that is really what this game is about. I understand there are countries where SR 50000 is worth a lot more so this is not a slap in the face as some people are saying. The game will be on Steam for one week then I will release the game for Android and Facebook and release an update for all you Elden Ring players. One last thing, if you cannot afford SR
