The engine is smoky, and you do smell a burning smell. The Father of US Aircraft Carriers (The New York Times) WASHINGTON — With his direct, concise manner, Leonard J. Francis, a former naval intelligence officer who served as Deputy Under Secretary of Defense for Intelligence in the Clinton and George W. Bush administrations, explained how on Sept. 12, 1943, President Franklin Roosevelt created the Navy's aircraft-carrier force. "The President gave us a mission," he said. "He told us what it was that we were there for, and he told us where we were to go." "It was a critical assignment," Mr. Francis continued. "It didn't matter how big our forces would be, or how much ammunition we would have, or how many battleships we had, or any other consideration. Without the assignment, it is unlikely we would have known how to accomplish the task. If we had failed, the result would have been a serious loss of national interest. It had to be done." Mr. Francis spoke last Thursday at a national security event hosted by the Hoover Institution at Stanford University. The discussion was part of a commemoration organized by the National Security Archive, which has a long history of research into declassified records. Mr. Francis, a longtime Hoover Institution board member and former C.I.A. official, led a panel on the subject of "The Creation of an Air Force Carrier Service." His detailed descriptions were received with admiration by the audience, which included, at one point, the former defense secretary Robert S. McNamara and the former Defense Department Inspector General Glenn A. Fine. Mr. Francis, in fact, had become particularly interested in the project of creating the aircraft-carrier force. It was during his time at the C.I.A., in the late 1970s and early 1980s, that Mr. Francis told his brother, lack, a naval veteran,

Download google map for windows 7 and apple. buy dvd torrents 3.0 map on line free key. Friday, February 09, 2016 This year my son turned seven. I wanted to make him a special cake for his birthday. I searched the internet for a cake recipe from which I could bake my son's dream cake and that of his favorite colors yellow and silver. He had made a lot of requests to me but had to be keeping it a secret. I made him a rainbow cake and his mommy and I decided to decorate it with silver and yellow sprinkles. Making cakes is my lovein-art and I welcome all your comments, especially if you can suggest me how to do it better next time. I hope you like this cake and you will do the same with your children's birthday cakes. So, friends, this is my cupcake recipe. Enjoy it. Butter or margarine for the baking tin All-purpose flour Sugar (to taste) Baking soda Baking powder Cream of tartar Milk Raisins Milk Corn Flour Oil (to deep fry) Silver and yellow sprinkles Preparation: 1. Combine the flour, sugar, baking soda, baking powder, cream of tartar and salt in a bowl. 2. Sift the dry ingredients and add the cold butter or margarine and cream of tartar to it. 3. Stir the mixture with your hands. 4. Add the milk and beat the batter with an electric beater for 2 minutes. 5. Add the milk and raisins and beat the batter again for 5 minutes. 6. Pour the batter into prepared baking tin and bake at 375°F for about 30-35 minutes or until the top of the cake has a golden color. 7. When the cake is cool, frost the cake and decorate it with silver and yellow sprinkles. Note: The cake should be served cool. This cake will last for up to three days after it is baked. I hope you will like this cake
