## **Elden Ring p.o.v.**

Across the world there are people in the magus who possess great power. These people, called magus, have the potential to reach a higher state of existence. The magus who are the most outstanding have their swords called Elden Ring branded on them. In this game, you create a new sword-brand from a new piece of your Elden Ring.

The Lands Between

The Lands Between consist of three states. The first is Field, an open wide space where you can fight

---

monsters and earn various rewards. The second is Apartment, a narrow space where you can freely kill monsters and take in their treasure. The third is the Tower, a three-dimensional dungeon which you explore and become acquainted with the monsters and treasures inside.

That day, [Angel] opened his arms and said "Take care and have a long life." [Ender] felt like he was going to cry as the warmth of the magus filled his body. He suddenly wanted to go out to the field and play, open his arms and embrace his mother's warmth. Then the young man was swallowed by this black mist, his eyes completely dry.
