

From distance, to breaking-in-a-tackle and headers, or counter-attacking down the flanks, FIFA World Cup Soccer, FIFA 22 and the FIFA World Cup have come a long way since FIFA 20 first launched. On-field movements are driven by individual players' every-day movements, or those influenced by the team's tactics. Introducing 22 new in-game seasons, the FIFA World Cup has over 180 years of history and 120 years of developing gameplay to deliver unrivalled authenticity. "The new proprietary motion capture technology is the biggest addition to the FIFA World Cup since the introduction of the 2015 World Cup game and the best technology we've ever had in FIFA," said Andrew Richardson, Head of FIFA Development at Electronic Arts. "With match-accurate player animations, passing, dribbling and shooting all driven by accurate, real-world data, FIFA 22 is sure to have the authentic feel of the FIFA World Cup and the game is the most complete football experience available." With complete player motion captured in-game, the FIFA World Cup and FIFA 22 gameplay features the highest quality motion capture and animation currently available in any FIFA game, with consistent and accurate player motions. Additionally, players' in-game movements are driven by in-game physics, resulting in professional-like on-pitch movements that enable players to move and interact as they would in real life. The FIA World Rally Championship's (WRC) winning team, M-Sport, has collaborated with Electronic Arts to help bring the pure emotion of an FIA World Rally Championship event directly into the game. The game will feature five round locations, 11 cars, the official trophies and a full-scale, in-game leaderboard. To celebrate the FIFA World Cup in Russia, FIFA 22 introduces the FIFA World Cup Trophy, which is a gold-plated replica of the FIFA World Cup trophy. Players will have the opportunity to collect all-new FIFA World Cup stickers, which are unlockable rewards for dedicated players. NEW MATCH, GLOBAL EVENT New Match In addition to unlocking new achievements, previously-unlocked items and new content, FIFA 22 adds a new Match mode called New Match, where players will be able to play against all-new players, teams and other opponents. This mode will include the new unofficial bonus content from the recent FIFA World Cup, including: A

What's new in Fifa 22:

- EA Sports FIFA 22 introduces 'HyperMotion Technology' that uses motion capture data from real-life players on a high-intensity, full-field, full-speed football match to power player animations. HyperMotion gives you more authentic player animations, more strategy in gameplay, and more tactical dimension from your teammates on the pitch.
- In FIFA Ultimate Team, you now have the choice to buy MVP cards through the Specialist Cards manager.
- The way you report cards in the My Card manager has been improved, to make it quicker, easier and more convenient for you to manage your card collection. Added are new bonus categories, new cross-categorise cards, and more stats for cards.
- You can now also receive six free My Card packs for when your Platinum card is activated.
- FUT Manager Update 7 will be compatible with FIFA 22.
- There are new FUT Origin Server Issues to be aware of, in particular relating to the 1,600 Elo spread in FUT Manager. This is a game mechanics issue that we are working to resolve as it has impacted matchmaking and league performance in some instances. Please join us in reporting these.
- As per updates in FIFA 21, e:Club has been implemented, and includes a new firming system that will now be applied to cards. This and other goalkeeper cards in the game are now vulnerable to the firming system.
- The minimum players value for the Homegrown cards 'Investment' and 'International' has been increased to £250.
- A number of bug fixes and improvements have been made across the overall engine and gameplay
- FUT Manager is now compatible with item updates that occur prior to the release of the game.
- FUT Manager is now more stable with more important features such as reporting cards, linking card packs and cards with players working better.
- More defenders and attackers are included in Draft Mode available in FUT Manager.
- Smarter saves and revised dead ball options on certain goal kicks have been introduced.
- Simulator Mode now supports larger teams from 12v12 to 24v24, and new game modes for FIFA Ultimate Team for increased depth, variety and gameplay.
