All Activation Windows 7-8-10 v21.8.2018 2019 Download PcFull Version Forever.Q: Error converting data type varchar to datetime I have a problem with converting data type. I have a table with a column "DtAgi" of type varchar. In this column I have dates for example 10/1/2014 or 2014-01-01. I need to update this value for every row in this table in column "Datagio" is a datetime type. I have this code, but there is an error when compiling the code: UPDATE dbo.TableName SET Datagio = CONVERT(DATE, ""+ DtAgi +"") Msg 156, Level 15, State 1, Line 2 Incorrect syntax near the keyword 'CONVERT'. A: I think you should be doing this in 2 steps. The first is to update the actual DtAgi to a datetime and then update the column with that new datetime value. Update dbo.TableName SET dbo.TableName.Datagio = '2014-01-01' SET dbo.TableName.DtAgi = CAST(CONVERT(DATE, '2014-01-01') AS DATETIME) Another alternative, if you have the DtAgi already as a datetime value would be to substrng the string and just convert the substrng to a date. UPDATE dbo.TableName SET dbo.TableName.Datagio = CONVERT(DATE, DtAgi) Twitter messes with accessibility by changing Digg 6d1f23a050
