If I had a router connected to the Internet but only had a desktop machine connected to the router, would this desktop machine use the Internet connection while I install Ubuntu? This is because, if I didn't install Ubuntu to the desktop, then I would not have access to the Internet until after installation, although the Internet connection would already be connected. A: Yes the internet connection will be connected. /** * Copyright (C) 2012-2020 the original author or authors. ** Licensed under the Apache License, Version 2.0 (the "License"); * you may not use this file except in compliance with the License. * You may obtain a copy of the License at * * * * Unless required by applicable law or agreed to in writing, software * distributed under the License is distributed on an "AS IS" BASIS, * WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. * See the License for the specific language governing permissions and * limitations under the License. */ package ninja.ws.idp.saml.metadata; import com.sun.identity.saml2.common.SAMLVersion; import org.opensaml.core.xml.XMLObject; /** * In addition to the definition of the default SOAP handler, allow a custom * implementation to be implemented as a POGO. */ public abstract class CustomSOAPHandler extends SOAPHandler { public static final String defaultName = "CustomSOAPHandler"; private XMLObject defaultHandler = null; private CustomSOAPHandler handler = null; public CustomSOAPHandler() { super(defaultName 6d1f23a050
