A 61-year-old man was hospitalized because of gradually progressive visual field defect and diplopia. He had no history of neurologic disorders. Neurologic examination showed ptosis and miosis on the right side, and dysarthria. He was found to have no visual field defect on his left side. Visual acuity was 20/20 in both eyes. Right Horner's syndrome was seen. He underwent magnetic resonance imaging that showed a sellar mass and cavernous sinus invasion. These findings suggested a pituitary adenoma of the macroadenoma type. Transsphenoidal tumor removal was performed. Histological examination of the resected tumor revealed a meningothelial

meningioma. The patient had no apparent recurrence two years after the operation. To the best of our knowledge, this is the first reported case of sellar meningioma with Horner's syndrome.Q: how to add tab selection to android accordion layout? I have created a layout containing 2 collapsible tabs. I would like the tabs to have a "Tab Selected" animation. I've found a couple example: tabs_container.xml

Why to stop using P2P programs (recommendation)? P2P software can be used for downloading programs, movies, games or just music but what if they are all infected by virus. You may find it troublesome and long when you are looking for a program or game to download. It is a long and boring process to search the internet for a virus free download. You can avoid such a problem because we have the solution in Windows 10. You can use keygen search tool. This is because it is a relatively easy way to download any file from the internet. You will find a large amount of keygen. But you have to be fully aware of the type of the keygen. There are two types of keygens. One is the traditional keygen which is also called free download keygen. It is absolutely free to use but often creates security issues. Another type of keygen is a premium keygen. This is also free to download but the download is often slow.
