

## Wastewater Treatment Plants Planning Design And Operation Syed R Qasim !!EXCLUSIVE!! Download

Wastewater treatment plants: Planning, design and operation [PDF]. Authors: Saeed R. Qasim; PDF. Add to wish list; Share. 7159 views. Download Embed. The textbook "Designing Wastewater Treatment Facilities" outlines the design of. Book: Designing wastewater treatment plants. Author: Said R. Kasim. Annotation, reader reviews, illustrations. Buy the book at an attractive price among millions of 'Labyrinth' books | ISBN 978-5-9765-1231-6. Designing wastewater treatment facilities. Textbook. Qasim Said R. Download free and without registration. Designing wastewater treatment plants. Kasim Said R. Designing wastewater treatment facilities. Author Said R. Qasim. Title Designing sewage treatment plants. Publisher Stroyizdat Date of publication 1988 Number of pages 184 pp. Binding Hardcover. Price (Price excludes shipping charges) Seller Booklit (Stavropol) Delivery delivery options and payment The book sets out the basic provisions and methods of designing industrial wastewater treatment facilities. Recommendations on the choice and justification of the basic scheme and constructive solutions of sewage treatment plants are given. The calculations of the main units and structures. Given various methods of calculating sewage treatment plants and their individual elements used in the design. Designed for engineers and technicians of design and research organizations. May be useful for students of universities and colleges. PREFACE PROTECTION OF WATER BODIES AND NATURE AS AN OBJECT OF CONSERVATION INTRODUCTION 1. BASIC PROVISIONS OF DESIGN 1.1. General provisions, principles and tasks of design 1.2. Principles of rational use and protection of water bodies 1.3. Principles of rational use and protection of water bodies 1.4. Structure of an integrated project of protection of water bodies. 1.5. Key objectives and objects of protection of water bodies 2. WATER BODY ANALYSIS 2.1. Characteristics of water bodies 2.2. Characteristics of soil, vegetation, and fauna 2.3. Condition of water bodies 2.4. Water body anthropogenic load characteristics 3. HYDROSPHERE AS A CONSERVATION OBJECT 3.1. Condition of the hydrosphere 3.2. Anthropogenic activities' influence on conditions of water objects 3.3. Protection of water objects 4. ASSESSMENT OF ENVIRONMENTAL CONDITIONS OF WATER OBJECTS 4.1. Water body condition analysis 4.2. Assessment of soil conditions 5. CONSERVATION OBJECTS 5.1. Flora and fauna 5.2. Anthropogenic landscapes 6. HYDRAULIC ENGINEERING CONSTRUCTIONS 6.1. Features of Hydraulic Engineering Structures 6.2. Organization of design of hydraulic structures 6.3.
