ArKaos Media Master PRO for Mac is a video editing, mixing and encoding software for Mac. Free for personal use. The program can produce an unlimited number of movie and television shows. It includes video, audio effects, transitions and bit rate management. You can mix up to eight different tracks at the same time and apply effects to them. The software comes with many effects, transitions and visual generators. ArKaos GrandVJ Video Editor is a real-time video mixer software allowing to compose up to 8 layers of video on the fly. Take any video from your hard drive, add effects to it and start making your own video show. The FREE version of ArKaos MediaMaster Pro comes with effect. Pro Plus version includes a VJ Plugin that will allow you to record/edit VJ effects and transitions, and record the VJ software in your DJ set. The Pro + version includes the following features: Multilayer Video Editing. Add up to 8 layers to your video that can be set for any specific duration. Edit Video and Audio in real-time. Create a video-clip without previewing it. Correct video and audio levels in real-time. Sync the audio and video tracks. Add an audio track to the video and assign automatic fade-in and fade-out. Add a video track to the audio track. Adjust the video-track 'Effects' panel. Drag and drop the video to the 'Transitions' and 'Effects' panels and configure a cool video transition. Select any part of the video, and edit it to make it fade-in or fade-out. Adjust the duration of the effect. Create a new effect and assign it to the 'Effects' panel. Arrange layer and cell with the help of the 'Transitions' and 'Effects' panels. Use the 'Transitions' panel to create any cool visual effect. DriftMotion and Zoom modules enable real-time video compositing, multi-track video editing, transitions, color shifting and color correction. Media Manager This module is able to import, export and open your multimedia files. You can start with the creation of a new media file by using the Media Manager. You can set all the needed audio and video parameters in a single-step editing process. Video Encoder Professional high-end encoding engine. Create your own content from scratch or copy your media files for video and audio editing, encoding, conversion and other tasks. Media Renderer Render files and content from a digital camera or a server directly to many different output formats. DriftMotion and Zoom modules enable real-time video compositing, multi-track video editing, transitions, color shifting and color correction. Media Gallery Generate multiple music videos and show them on screen and on hard drive. You can set your own music for video generation and enable playlists. You can also choose any layout for the generated videos.
