

Hiren's BootCD 16.2 Rebuild All In One Bootable CD

Download

hiren s bootcd 16.2 rebuild all in one bootable cd (hbcd) is a completely free bootable iso that can be used to fix many computer problems, including uefi, invalid partition table, bios problems, hard drive problems, and more. this hbcd 16.2 includes a number of bootable tools and utilities, as well as the windows 7 version of roxio easy cd creator, a free tool that can burn windows 7 iso files to cds, dvds and usb flash drives. another tool included in hbcd 16.2 is roxio dvd copy, a free tool for creating iso images of dvds that can then be used to create bootable dvds, including bootable dvd versions of windows 7, windows 8, windows 8.1, and windows 10. hiren's bootcd comes with a 30-day trial of acronis true image 2019, an excellent free backup software. this trial license is good for one computer. the software uses an intelligent algorithm to build a compressed image of your entire hard drive before it backs it up, which makes it ideal for recovering from failing hard drives. it also has a snapshot feature, which allows you to create a point in time version of your hard drive so you can easily roll back and restore files if something goes wrong. it's a great choice if you've just bought a new computer and want to make sure you're backing up your files from scratch. in an effort to ensure that everybody can use the software, a completely free edition of hiren's boot cd was released. the cd does come with some limitations (the free version is unable to repair corrupted windows systems and will not run on mac os 9 or later), but the developers have left out the commercial software and ensure that a free version exists that anybody can download. this means that anybody can download the free version of hiren's boot cd and use it for their own personal use without fear of infringing any software rights.
