Download

May 1, 2015 - That's it until I tried to install wad star fox 64 with wad.homebrew channel 1.1.2 on wiimode, I tried to install patched ios 80. As a result, after installation, I could not start wad star fox. After reboot, I installed this fox back and then installed ipa. I started fox and all was well. But then, it started making sounds like it wanted to open another file. I uninstalled fox and when i tried to start fox again it started making sounds like in this video. I had my fox open. I restarted my computer and I tried to download fox again, but now it can no longer open.
