## Bangladesh Fire Service Rules 1961 Pdf Download ^HOT^

the life safety code includes more than 2,000 rules covering building construction, protection, and occupancy features that minimize the effects of fire and related hazards. the life safety code recognizes that buildings are complex systems that include features such as windows, doors, stairs, elevators, and appliances; and that people occupy buildings for a variety of purposes such as living, working, relaxing, caring for children, or exercising. in addition to defining the safety features for building occupants, the life safety code defines the minimum performance requirements for those features. these performance requirements are based on the premise that building occupants need to be safely protected from the risk of fire, smoke, and toxic fumes. recent osh improvements in china include the implementation of the chinese ministry of human resources and social security national occupational injury survey ( ), which established the basis for the first chinese occupational injury statistics and made available the first chinese-language occupational injury statistics ( zhou and others 2012 ). although there is no comparable data available from bangladesh, osh issues in china can provide a valuable basis for understanding similar problems in other lmics, especially considering that the differences in national infrastructure, as well as the effects of osh reforms in china, may be replicated in other lmics ( lu and others 2011 ). in general, the informal economy is characterised by poor working conditions, low pay, and high turnover, all of which are associated with higher injury rates in informal employment ( ghoshal and lewin 2001 ; jaitovich and others 2011 ; kopp and peltzman 2009 ). in bangladesh, the informal economy comprises 68 percent of the workforce, and it is estimated that only about half of these workers are paid a minimum wage ( akhter and others 2010 ). a survey conducted in 2003 indicated that the majority of informal workers earned less than usd60 per month ( akhter and others 2010 ).
