

[FS9 FSX] Aerosoft - Mega Airport Paris Charles De Gaulle V1.11 Version Download !!HOT!!

The same goes for parking. Parking at Paris Charles De Gaulle is not difficult. There are a lot of spaces, and they are well placed, meaning they dont take up too much space. If there is a line, most people do find a way through. But you need to be careful. There are lots of barriers that can be fun to stop your plane on, which shouldnt happen as long as you are in the correct lane, but people cannot always be trusted. Especially in full, depending on the weather. Fortunately, the parking at Charles De Gaulle is only temporary, so even if you have to wait for a long time, you will be able to leave your plane and taxi to the runway. Despite all this, I found the parkig to be a lot better than at Schiphol. But hold on, this isnt my only complaint. Because I also need to make a quick comparison between the file of this airport and the Schiphol airport. At Schiphol the runways are aligned with terminals, meaning that there is no need for taxiways. With the gigantic Paris Charles De Gaulle Airport, the runways are also aligned with terminals, but with a difference: each runway is split into two right behind the terminal. Because of that, the taxiways are longer than necessary, because the taxiways in Paris will have to cross the runway with its split, as it doesnt align with the terminal. As I said, all in all, the file is well done. Sure, it would have been nice to get a bigger airport from aerosoft, but thanks to its developer, he also has made sure he has given an airport that fits its site, and that it can always be tweaked until it fits your needs. This airport, in my eyes, represents an airport that should look like that. And it looks great.

[FS9 FSX] Aerosoft - Mega Airport Paris Charles De Gaulle V1.11 Version Download

Aerosoft's Mega Airport Boston Logan is a highly accurate portrayal of this airport. Aerosoft used highly accurate and detailed aerial images, modeled buildings, runways and taxiways based on original plans. All navigation beacons and lighting systems are modeled to the finest details. The result is a precise representation of this airport. This is a total revamp of the old city airport and thus makes it easier than ever before to come here and get to experience the Parisian lifestyle and culture through one of the most advanced and affluent airports in the whole of the city of Paris, regardless of where you intend to visit! The scenery is so great that it actually tries to be as accurate as possible by including many details not even seen in other airports. In this airport you will feel like you are in Paris; and not just a feeling from a first-person-view. All city lights, traffic, water and buildings of this fantastic airport are fully modelled, including the walkway system. This scenery includes the all the famous landmarks around this busy mega-city, even the famous Eiffel Tower. This is a total revamp of the old city airport and thus makes it easier than ever before to come here and get to experience the Parisian lifestyle and culture through one of the most advanced and affluent airports in the whole of the city of Paris, regardless of where you intend to visit! This, naturally, makes it much easier to hop into the cockpit and feel secure and safe in what you are doing as the airport now represents what it should look like. For Parisians and frequent flyers alike, this makes the entire takeoff and landing process much more enjoyable as it now echoes what you can do in real-life when you arrive at this airport.
